

## Product Sheet

# Goat's Choice Plus

### Key Points

- Supplies protein and starch to improve milk production
- Balances the diet as pasture changes occur in late lactation
- Pelleted for reduced waste and improved digestibility
- Added molasses for improved palatability
- Can safely have trace elements and additives added at set feeding rates for optimal performance
- Complies with DGC feed requirements

### Typical Analysis

DM	88%
MJME	12
CP	20%
Starch	32%
NDF	25%

### Ingredients selected from:

Maize, DDGS Wheat, Wheat, Barley, Canola Meal (GMO free), Molasses, Salt, Flavouring

### Feed recommendations

Designed to be delivered to goats in a controlled manner via an in-shed feeding system or can be mixed with a significant portion of the daily forage allowance prior to feeding in troughs or trailers.  
Typically fed at a rate of 200g – 1kg/head/day

**Available:** Morrinsville and Whanganui mills. Bulk orders only and a minimum of 6 tonnes
